

Task code:	roses	queens
Task title:	Roses	N Queens
Task type:	Batch	Open input
Name of the input file:	roses.in	---
Name(s) of the output file(s):	roses.out	queens.o1 queens.o2 queens.o3 queens.o4 queens.o5
Time limit for one test run (time is measured on the grading server):	0,4 seconds	---
Memory limit:	64MB	---
Maximum possible score:	100	100

Input and output file names must be specified assuming they are in the current folder (without specifying full path) exactly as mentioned in task description (case sensitive **with small caps**).

The same test or test group may correspond to several subtasks mentioned in „Grading” section.

When compiling on the grading server, the following compilers and switches will be used:

- Pascal
fpc -O2 -Sg -XS
- C
gcc -std=gnu99 -O2 -s -static -lm -xc
- C++
g++ -O2 -s -static -xc++
